

## **Grade 6 Science Curriculum Summary**

### **Science Term 1: Skills of Science Integrated Throughout Term Diversity of Life:**

- Similarities/differences of living things
- Classification of living things
- Magnifying Tools for investigations
- Adaptations of living things

### **Science Term 2: Skills of Science Integrated Throughout Term Electricity:**

- Atomic Model
- Imbalance of Charges Particles
- Direction & Control of Current
- Transformation of Electricity into other forms of Energy
  - Motors & Electromagnets
- Productions of Electricity
  - Non-renewable resources
  - Renewable resources

### **Science Fair**

### **Science Term 3: Skills of Science Integrated Throughout Term Extreme Environments:**

- What are extreme environments
- Technology used to explore extreme environments
- Space Exploration

### **Rockets**
